BIOGRAPHY

I have been a self-motivated programmer for the past five years, two of which have been spent learning web programming. I study intensively so that I am better capable of creating high quality web applications. I am passionate about what I do and always seeking to increase my knowledge base. The soft skills I continuously develop include communication, self assessment and conflict resolution.

SKILLS

- Team Player & Leader
- Listening and Understanding client needs
- Accepting Productive Criticism
- Visual Communication
- Critical Thinking
- Problem Solving
- Organization
- Office Software

EDUCATION

University of Technology　　　　　**AUG, 2018 → Current**

- Completed Programming 1 and Programming 2 in first year. Current courses include Web Programming and Database Design.
- Member of the schools SAPNA Organization which specializes in creating software solutions for organizations.

St Mary High School　　　　　**SEP, 2012 → JUL, 2018**

- Gained eight CSEC subjects which include a distinction in CSEC Information Technology and six CAPE subjects with a grade two (2) in Computer Science.

EXPERIENCE

Web Developer - St Mary High School　　　**2018 → AUG, 2019**

- Developed a Web Application for the school that provides an interface for staff to upload articles and files for approval by web managers before allowing it to be shown on the site. This allows students to easily access learning material and information about the school.
- Created with: HTML5, CSS3, JavaScript, PHP, MySQL, Linux, Apache HTTP Server
- Website URL: www.stmaryhigh.com

Web Developer - Jamaica Electronic Agriculture Trade　　**2018**

- Started developing a web application that would allow farmers to sell produce to businesses. Unfortunately the startup was unsuccessful.

Laravel **Wordpress** **MongoDB** **HTML5** **CSS3** **JavaScript**

Apache Web Server **Linux** **Node.js** **Vue.js** **PHP** **MySQL**
